

Klove serves our local community by offering family friendly programming that is safe for my kids to listen to. Without KLove, I would have to subscribe to satellite radio in order to have Christian music available to my kids. It provides a wonderful way for our family to learn about Jesus through song. It is a wonderful way for my children to praise Jesus and it keeps them from wanting to listen to all of the other trash on the radio. It builds family values and helps children grow to be better people.
